AIMTM

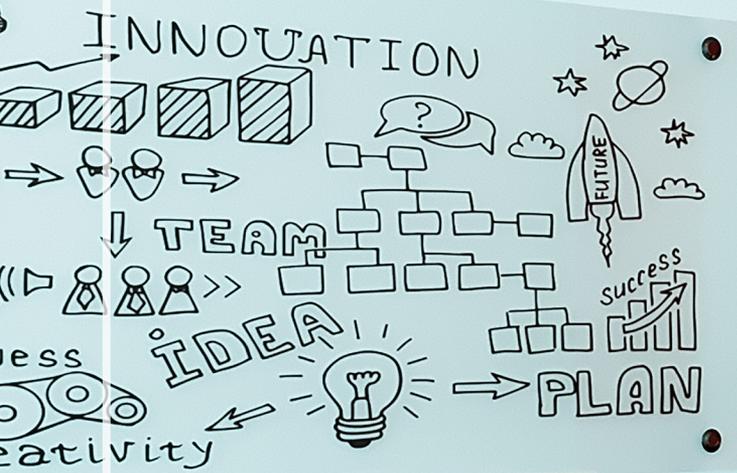

Table Series

AIM™

Sparking Creativity in Any Environment

AIM™ celebrates an attractive modern design suitable for a variety of interiors and delivers a high level of sophistication to any space. It bridges the gap between traditional work spaces and a new generation of workers who are on the move throughout the day focusing on their work in private settings, collaborating in groups, or connecting at the informal gathering areas. AIM™ supports the need for flexibility with three table heights, several shapes and sizes, premium casters, and versatile charging options.
